

Everything You Need to Know About Pumps

By Larry Bachus and Angel Custodio

Published by Bachus Company, Inc.

Very few industrial pumps go into the maintenance shop because the volute casing or impeller split down the middle, or because the shaft fractured into four pieces. The majority of pumps go into the shop because the bearings or the mechanical seal failed.

The focus of industrial plant maintenance has always been that the system design is correct, and that the operation of the pumps in the system is as it should be. In this book, you will see that in the majority of occasions, this is not true. Most of us in maintenance spend our valuable time, just changing parts, and in the best of cases, performing preventive maintenance, trying to diminish the time required to change those parts.

We almost never stop to consider, What's causing the continual failure of this equipment? This book will help you to avoid frequent, mysterious, emergency pump failure.

This book is directed toward the understanding of industrial pumps and their systems. It won't be a guide to design pumps, or repair pumps. There are existing books and courses directed toward those themes. By understanding the real causes for pump failure, analyzing those failures, and diagnosing pump behavior through interpretation of gauges and instrumentation, you can achieve productive pump operation and contain maintenance costs. This book serves as a guide to STOP repairing industrial pumps.

The book is available for \$115.00, which includes shipping within the US. For more information on the book, or for a quote on export shipping, email us at larry@bachusinc.com or call us at 615-361-7295. To order the course by check or money order, fill out this form and mail your payment to:

Bachus Company Inc.
P.O. Box 171010
Nashville, TN 37217

To pay by Visa, MasterCard or American Express you can speak directly to Larry Bachus at 615-361-7295 and give him your credit card information over the phone. Or, you can complete the form below and attach the form to an email to larry@bachusinc.com. You will receive a confirmation email.
